SUMMARY

Full Stack Developer with hands-on experience architecting and shipping production SaaS systems end-to-end — from backend system design and database architecture to CI/CD and deployment. Currently expanding into mobile development with React Native. Comfortable owning ambiguous, high-responsibility scope in fast-moving startup environments, with a strong focus on system design, multi-tenant architecture, and secure authentication/authorization patterns.

EXPERIENCE

Web Developer

Mar 2025 – Present

Maity Innovations Pvt. Ltd.

West Bengal, India (On-site)

- Architected and led backend system design for a multi-panel real estate SaaS serving **1,500 weekly visitors** across Customer, Admin, Supplier, and Constructor panels, with strict role-based data isolation across all 4 panels.
- Engineered Razorpay payment gateway integration with webhook-driven reconciliation for real-time transaction status sync and slab-based payment scheduling across multi-stage property transactions.
- Designed JWT-based authentication and granular RBAC with permission inheritance and middleware enforcement across all 4 panels, eliminating cross-role data access risks.
- Set up Docker-based CI/CD with GitHub Actions, bringing deployment time to under 10 minutes and fixing a memory (RAM) leak issue during the migration.
- Currently developing a React Native mobile application extending the platform to iOS and Android with shared backend API integration.

Web Developer Intern

Nov 2024 – Feb 2025

Maity Innovations Pvt. Ltd.

West Bengal, India (On-site)

- Built full-stack web applications using React, Laravel, Node.js, and PostgreSQL; independently owned database schema design and REST API development.
- Delivered responsive, accessible frontend interfaces and authentication flows from scratch, improving usability across devices.
- Conducted code reviews for fellow interns, reducing bug discovery time during QA cycles and improving code quality standards.

PROJECTS

My Chat Buddy | *Fastify, TypeScript, PostgreSQL, ChromaDB* | my-chat-buddy-web.vercel.app

2026

- Built a multi-tenant RAG chatbot backend letting businesses deploy a support assistant trained on their own documents via API or embeddable widget, with isolated per-project API keys, vector stores, and usage tracking.
- Implemented document ingestion with hybrid-reranked retrieval, multi-provider AI support (Groq, OpenAI, Gemini, Ollama), and OTP-verified lead capture; deployed live on nayanbera.in.

NEXT-CRM | *Next.js, Node.js, PostgreSQL, Redis, Docker* | naystack.vercel.app

2026

- Built a Bitrix24-style multi-tenant CRM SaaS designed to scale to **10,000+ users** with isolated company data on shared infrastructure, granular RBAC with field-level permissions.
- Includes analytics dashboard, team collaboration, payroll module, and AI-powered insights layer.

Vendor Bidding | *Node.js, Express.js, PostgreSQL, Razorpay* | *Part of Real Estate SaaS*

2025

- Designed the multi-level vendor bidding engine and slab-based payment workflow within the real estate SaaS, supporting concurrent bids across **4 user roles** on a unified schema.
- Built Razorpay webhook handling for reliable real-time transaction updates, reducing payment status discrepancies between panels.

Library Management System | *Java, Spring Boot, Maven, MongoDB, JWT* | *Academic Project*

2025

- Built a library management system with Spring Boot and Maven, implementing JWT-based authentication and CRUD operations against a MongoDB data store.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL
Frontend: React.js, Next.js, Redux, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, Fastify, REST APIs, GraphQL, WebSockets, Spring Boot
Databases: PostgreSQL, MySQL, MongoDB, ChromaDB (Vector DB)
System Design: Microservices, Multi-tenant Architecture, Distributed Systems, RAG Pipelines, Caching
Mobile: React Native, Android Studio
DevOps & Tools: Docker, GitHub Actions, CI/CD, Git, Linux, Nginx
Other: RBAC, JWT, OAuth, Payment integration, AI/LLM Integration (OpenAI, Gemini, Groq)

CERTIFICATIONS

Learning Analytics Tools – NPTEL (IIT Bombay), Elite, Jul–Oct 2024 (12-week course, scored 65%)

EDUCATION

Master of Computer Applications (MCA)	2022 – 2024
<i>Dr. B.C. Roy Engineering College, Durgapur (MAKAUT)</i>	<i>CGPA: 7.8 / 10.0</i>
Bachelor of Computer Applications (BCA)	2019 – 2022
<i>Vidyasagar University</i>	<i>79.48%</i>

LANGUAGES

English, Bengali, Hindi

INTERESTS

Exploring new technologies, video games, traveling to new places, cooking
